## **President's Message By Tom Telford**

HELLO TO ALL

Firstly I must apologize for the technical difficulties that we all experienced at the last meeting. Developing a program on one computer's operating system and program level does not obviously work when trying to present it on another unit which may be different.

Reservations for the February Tutor session are all filled. If you have something you would like to learn, please contact me to reserve your spot at the March meeting. If members have a laptop they should bring it fully charged. We will also have laptops available to demonstrate issues for desk top users. There are no too-simple questions as far as we are concerned. If you don't know the answer or the function, throw it at us and we will do our best to help you understand.

We continue to request that someone volunteer for the Program Director position, which is currently vacant. This obligation will not be dumped on any one individual the entire board will help with this endeavor. If anyone has suggestions for meeting speakers and/or topics, pass these on to a Board member.

Please be aware of the meeting and help desk items and schedules, which appear in other sections of the newsletter.

Respectfully submitted,

Tom
